

Application:

Wind powerplants

Products:

Silicone heaters, insulations made of silicone and heated hoses

Applications:

Chemical and thermal process engineering

Products:

Heating mats, heating jackets, heating tapes, heated hoses, industrial and laboratory heating mantles

T_{max} = 900 °C

Our headquarter in Heidelberg

Our site in Walldorf

Winkler GmbH
Englerstraße 24
D-69126 Heidelberg

Applications:

Machines, devices and instruments

Products:

Heating mats, silicone heaters, controllers and silicone heating caps with integrated miniature controller

Winkler GmbH – who we are and what distinguishes us

Our work not only centres on the product itself, but also on developing complete solutions. It is with this belief in mind that our employees plan and manufacture electrical heating devices - adapted precisely to your requirements as a customer. Your temperature problem is our inspiration. Our resourceful developers and skilled manufacturing specialists do everything within their power to make your enquiry into a Winkler heating solution. This way we can respond flexibly and quickly deliver you a ready-for-connection result from a single source. We're proud of that!

There is not only enthusiasm for innovation in our 60 employees' heads, but also comprehensive knowledge from a wide range of technologies. We have continuously transferred the experience gained since the company's foundation in 1979 into new product and application areas, such as explosion protection. This versatility allows us to supply customers in industry, in the laboratory and in railway technology – worldwide. But no matter where: We are in close contact with every customer. Because the better we fulfil your requirements, the more convincing the results. And that is what matters for us!

Applications:
Environmental and process measurement

Products:
Heated lines, ATEX-heated lines for zones 1/2 (Gas) and 21/22 (Dust) with EC-type examination, heated filter housings

Application:
Exhaust measurement on test beds and vehicles

Products:
Heated lines, heated wall bushings, heating jackets and silicone heaters

Applications:
Filling and dosing technology

Products:
Heated hoses, heating jackets, drum heaters. ATEX heated hoses and ATEX drum heaters for zones 1/2 (Gas) and 21/22 (Dust) with EC-type examination.

Applications:
Bonding and plastics engineering

Products:
Heated hoses and drum heaters for the processing of glue, hot-melt-products and plastics

Application:
Railway technology

Products:
Silicone heaters, insulations made of silicone, controllers, heated hoses and "Seamless" heating cables according to DIN 54837 and DIN 5510-2 for railway technology

Application:
Medical engineering

Products:
Heated hoses, silicone heaters and heating foils
